

Bold Ridge Apex (2007)
for piano

duration ca. 5 minutes

Completed by the summer of 2007, *Bold Ridge Apex* for solo Piano has been especially composed for pianist Ermis Theodorakis. The work, with its lower register ostinato and its fast passages creates a dark sonic background that gradually develops in pitch, volume and dynamics leading through undulations to a flat and solid plane. The total dynamics of the piano, as a holophonic texture ousts apportionment from the listener's perception, in order to create a solid-state, monolithic sonic object with internal functions. www.panayiotiskokoras.com
